

# Jérémie Néhlil

SENIOR FULLSTACK JAVASCRIPT ENGINEER

Near Paris (Sorel-Moussel), France · French (native), English (professional) ·  
jeremie.nehlil.freelance@proton.me · jeremn.dev

---

## EXPERIENCE

### ViaMichelin

2024-PRESENT · FREELANCE · BOULOGNE-BILLANCOURT

SENIOR FULLSTACK

Progressive rebuild of the public ViaMichelin site (mapping, routing, related services) within a 14-person product team. SvelteKit + Svelte 5 front on a Fastify GraphQL BFF; Pact contract testing and a Testing-Trophy strategy against silent integration regressions.

SvelteKit · Svelte 5 · Fastify · GraphQL · Playwright · Pact · GitLab CI

---

### Upply

2023-24 · FREELANCE · LEVALLOIS-PERRET

FRONT-END

B2B SaaS for price and capacity forecasting across transport and logistics. Feature work on the Next.js platform and back office, GraphQL on the client via React Query, front-end quality and tests.

Next.js · React · React Query · GraphQL · TypeScript · Cypress

---

### Spectral TMS

2023 · FREELANCE · PARIS

JS DEVELOPER

One-month reinforcement on a business-workflow tool: a React workflow module against a Node REST API, iterating quickly with the PM and founders on specs.

React · Node.js · TypeScript · REST

---

### Fidesio

2018-22 · AGENCY / ESN · PARIS

FRONT-END & FULLSTACK

Régie developer at a digital agency / ESN, placed on client missions across the period. Front and fullstack in TypeScript / Node.js, with test setup on the client projects.

TypeScript · Node.js · React · SvelteKit

---

#### France Télévisions

2020-23

Rebuild of the France 3 régions and La 1ère sites, centred on web performance for high-traffic audiences: PWA architecture, Core Web Vitals, bundle and cache work.

*Final stretch (late 2022-2023) continued as a direct freelance engagement after Fidesio.*

SvelteKit · Node.js · Symfony · PWA

#### N&C

2018-19

Front-end on the Revbell and Gaia products, with R&D on data visualisation (d3.js).

React · d3.js · JavaScript

FRONT-END / FULLSTACK

Digital agency: responsive integration and JavaScript application work (Vue.js, React) across client projects.

Vue.js · React · Node.js · JavaScript

## Groupe PSA / Citroën

2017-18

Citroën marketing site and vehicle configurator: CSS refactor to remove the previous integrator's legacy and cut redundancy on the configurator.

SCSS · jQuery · Web perf

---
